Matthiesen Magic Finger Heat Seal Bagger

The Magic Finger Heat Seal Bagger is a fully automatic system that fills and closes 5- to 10-pound ice bags. The ice is moved from the hopper to the volumetric drum, then dropped into a pre-positioned bag. The Magic Finger pulls the bag, with assistance, from the bag conveyor to the heat sealing or wire tie unit.

Equipment Specifications:

	Uncrated	Crated
Length	101"	106"
Width	44"	49"
